✦ Spell to Summon the Light of Truth

A Ritual of Divine Revelation and the Dispelling of Falsehood

📖 Purpose

To invoke the power of celestial illumination in order to reveal hidden knowledge, expose deception, and receive clarity in matters obscured by lies or confusion.

🌀 Traditional Context

This ritual reflects a syncretic fusion of Egyptian solar theology, Greek oracular divination, and Roman personifications of truth. In Egyptian tradition, Ma'at governed justice and divine order, often invoked during trials and rites of weighing the soul. Greek rituals associated Apollo with prophetic vision and light-born clarity. The Roman figure of Veritas personified truth as an ever-present but hidden force.
